

IMPORTANT 2023 PLAN UPDATES

As the leading home warranty provider, it's necessary to continuously adjust our products and prices when faced with external economic challenges — so we can continue to provide the most comprehensive plans and services to our current and future members.

Given the inflationary cost pressures our industry is facing, we're adjusting our product prices effective **3/15/23**. We understand that in this environment, it's extremely important for homeowners to protect their budgets from expensive household breakdowns. With that in mind, and to minimize the impact of these price changes, we've optimized several plan features. Changes include adjustments to our ShieldCompleteSM plan and covered item dollar limits across all plans.

Please review the updates below and keep an eye out for new sales collateral.
