Fourplex	\$1,105		

Coverage Upgrades

Our basic plan provides excellent coverage for your core home systems and appliances. Our upgrades extend coverage and help reduce out-of-pocket expenses.

First Class Upgrade

Extend your protection for many covered systems by adding coverage for building permits, upgrades required by building codes, recapture and removal of refrigerant, and disposal of appliances, systems, or components we replace.

Codes, Mods, and More

This great addition to the First Class Upgrade provides an added allowance for correcting code violations and making modifications when repairing or replacing HVAC systems and water heaters. It also covers zone controllers for heating and air conditioning.

Plumbing Plus

Repairing leaks or breaks to water, drain, or gas plumbing can be expensive when the pipes are encased in concrete, or outside the home's foundation. Extend protection to cover these issues, as well as coverage for water heater expansion tanks, the installation of ground-level cleanouts, and clearing of stoppages caused by roots.

Appliance Plus

Made for homes with luxury appliances, this upgrade increases the plan limit to \$10,000 for each of the following: Kitchen Refrigerator, Kitchen Appliances, and Clothes Washer and Dryer. The plan limit for Additional Refrigeration increases to \$2,000.
