

Timeline tab:

1. Will the timeline PDF automatically be attached to the email when using “Email Timeline”? Or does it need to be downloaded and uploaded separately?

- **Status:** partial
- **Answer:**

No PDF attachment today. “Email Timeline” inserts the timeline as plain text in the email body. Print/PDF is a separate action.

- **Same thing elsewhere?:**

Print PDF produces a printable view but does not attach to email.

Email body text is functionally similar content to the print table, but not a file attachment.

Currently can email timeline but in text form not in pdf form

- **Suggestions:**

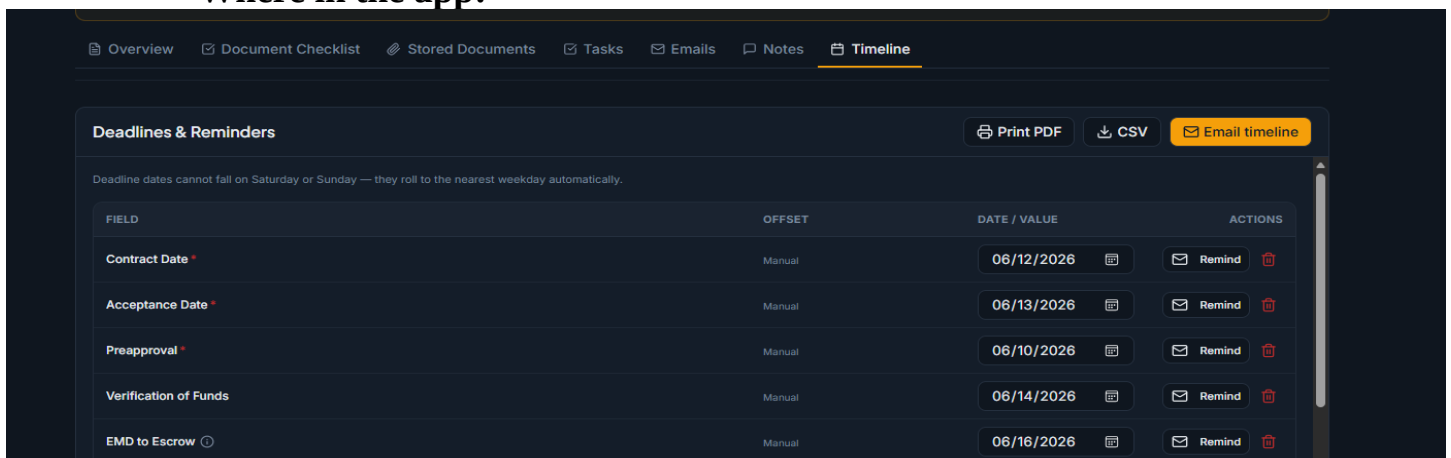

Clarify: Is inline text enough, or does she require a PDF file attached?

If PDF required: On “Email Timeline”, generate PDF (reuse print layout), pass attachmentFileIds to send API, attach via SMTP.

Quick win: Add UI note: “Timeline is included in the email body. Use Print PDF if you need a separate file.”

Improvement: Optional checkbox: “Attach PDF copy” when sending timeline email.

- Verification of Property Condition: Within 5 days prior to COE
- Possession: Upon notice of recordation

Escrow officer: zohaid bcha escrow officer
Escrow company: extreme soft

Best regards,
Kathryn Santos

2. There are two separate timeline emails one to escrow/agents, one to buyer/seller.
Can we have two buttons on the timeline tab?

- **Status: Not Done**
- **Answer:**

One button, one template today.

- **Same thing elsewhere?:**

User can manually change recipient and template in Emails tab after Email Timeline opens compose — but there is no dedicated second button or second default template.

- **Suggestions:**

Add second template in DB/migration, e.g.:

“Timeline Escrow & Agents” (escrow officer, LA/BA, TC)

“Timeline Client” (buyer or seller; softer client-facing wording)

Replace one button with two:

Email timeline (parties) prefill escrow + agent emails from transactionRecipientSuggestions

Email timeline (client) prefill client email

Or one split button / dropdown: “Email timeline to...” → Parties | Client

Ensure migration V044 (and new template migration) are run on staging/prod.

3. There are two separate timeline emails one to escrow/agents, one to buyer/seller. Can we have two buttons on the timeline tab?

- **Status: Partial**
- **Answer:**

Reminder drafts yes; general email drafts no.

- **Same thing elsewhere?:**

Reminder drafts are the only “save for later” email flow. They are tied to deadlines/reminders, not free-form compose.

Calendar “Save draft” (CalendarPage.tsx → saveDraftFromEvent) creates reminder drafts same system.

- **Suggestions:**

Add Save draft on TransactionEmailsTab and optionally EmailPage.

Extend emails with delivery_status = 'draft' (or new email_drafts table).

Show Drafts list under Emails tab or Calendar reminders panel.

Reuse reminder-draft UX patterns (save → review → send/dismiss).

- **Where in the app:**

4. Can email drafts be scheduled to send at a later time?

- **Status: Not DONE**
- **Answer:**

No scheduled send.

- **Same thing elsewhere?:**

NONE

- **Suggestions:**

Add scheduled_at + status = scheduled on draft/sent email records.

Cron/worker: pick due rows, call existing sendMailWithStoredSettings.

UI: “Send now” vs “Schedule” with date/time on compose.

Lower priority than drafts + attachments unless senior needs it soon.

5. Can document(s) in a folder be emailed directly from there, or download then upload?

- **Status: Not Done**
- **Answer:**

Must download manually today no “email from folder” action.

- **Same thing elsewhere?:**

Document Checklist can attach vault files to checklist rows but not email them directly.

Emails tab compose has no “pick from stored documents” flow.

- **Suggestions:**

BTW NONEED CHANGES: doc can be sent through email directly through checklist of any transaction to get signature.

Add row actions: Email file / Email folder on Stored Documents.

Opens Emails tab compose with selected stored_file_id(s) as attachments (after Q6 is built).

For folders: attach all files in folder or zip server-side (if many files)..

Form MVU-26
Affidavit in Support of a Claim for
Exemption from Sales or Use Tax for
a Motor Vehicle Transferred Within a Family

Massachusetts
Department of
Revenue

Rev. 6/04

Please read the instructions below before completing this form and provide the following information.
All entries must be printed or typed except for signatures.
This claim for exemption is based on a transfer of a motor vehicle between certain family members.

Motor Vehicle Transferred

Year Make Model Vehicle identification number Title number

The above-described vehicle was transferred from (Prior owner(s)) of (Address)
City/Town State Zip to (New owner(s))
Address City/Town State Zip ON Date

The above-described vehicle was transferred from (check one) ☐ Spouse ☐ Son ☐ Daughter ☐ Mother ☐ Father ☐ Sister ☐ Brother

Declaration

I declare under the pains and penalties of perjury that I have reviewed this affidavit and the statements I have made in it and declare that they are true.
Signature of prior owner(s) Date
Signature of new owner Date

If the prior and new owner(s) reside at the same address or have the same last name, only the new owner(s) need sign this affidavit.

Instructions

The purchaser of a motor vehicle acquired for use, storage or other consumption in the Commonwealth of Massachusetts is required to pay a sales or use tax unless an exemption is specifically provided for in the Massachusetts General Laws or the Code of Massachusetts Regulations.
An exemption from the sales or use tax for the transfer of a motor vehicle within a family under specified conditions is provided for by the Massachusetts regulations and statutes. In order to be exempt from the sales and use tax, you must meet the requirements of the law and complete the affidavit above. You must fill in all blanks and print or type your entries, except at the end of the affidavit where your signatures are required.

Please note that your statements are to be made under the pains and penalties of perjury and that a statement which is made willfully and is false as to a material matter may be punished as a felony under Massachusetts General Laws, Chapter 65C, section 73, or Chapter 268, section 1A. Perjury is a serious crime and punishment can be severe.
If you have any questions about the acceptance or use of this affidavit, please contact Massachusetts Department of Revenue, Customer Service Bureau, PO Box 7010, Boston, MA 02204, (617) 867-MDOR.

6. How do we attach a document to an email??

- **Status: Not Done (schema only)**
- **Answer:**

No attach UI or API wiring.

- **Same thing elsewhere?:**

{{document_list}} token lists checklist document names in the body not file attachments.

- **Suggestions:**

BTW NONEED CHANGES: when any doc is uploaded Docusign template opens we set signature fields of vender and client where we want to take signature it create a email template, we sent that email template doc to client to get signature.

- **Where in the app:**

E-sign template Builder

Place vendor and client fields on the PDF. Vendor uses your SMTP signature image (burned into the file for DocuSign); only the client receives a DocuSign signing email.

 Upload & create template

Documents:

7. Can I save documents and folders not tied to a specific transaction? (Documents tab on left)?

- **Status: Partial**
- **Answer:**

Yes, but it is the CRM eSign template library not a general file cabinet..

- **Same thing elsewhere?:**

Per-transaction **Stored Documents** are tied to one project.

Settings → **Formatting Rules** references vault files for checklist rules..

- **Suggestions:**

Yes u can save a doc signature fielded documents and folders not tied to a specific transaction just do not tied to any document rules in setting section. Just upload and drag files of signature an leave it there.

. **Clarify:** Template library vs “any file storage.”

If wants general non-transaction storage:

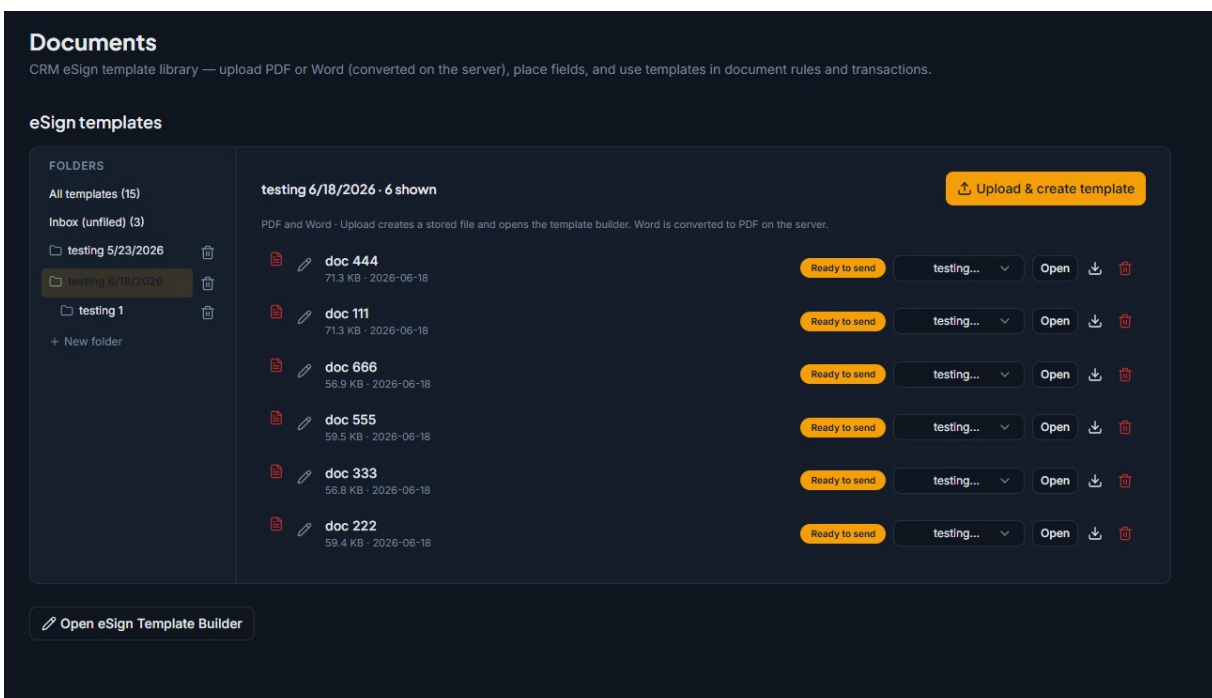

Rename/subtitle Documents page to reduce confusion (“eSign template library”).

Add separate File library for brochures, instructions, videos (feeds task “Instructions here” links).

Document in onboarding: Documents tab = templates for rules/eSign, not client file folders.

- **Where in the app:**

Purpose: Upload PDF/Word templates, place eSign fields, use in document rules and transactions

8. Create folders of documents and share links with third parties (temporary ~3 months)?

- **Status:** Not done
- **Answer:**

Folders exist per transaction; no public share links or expiry.

- **Same thing elsewhere?:**

Disclosure link on property (disclosureLink field) is a manual URL field — not system-generated sharing.

Glide/Drive links in Compass workflow are external (manual tasks).

- **Suggestions:**

New feature: Shared folder links

share_links table: folder_id, token, expires_at, created_by, optional password

Public read-only page: list + download files

Default expiry: 90 days (per senior note)

Revoke link from Stored Documents UI

Use cases: signed disclosures to other agent/TC; end-of-file client copy

Security: signed URLs, rate limit, audit log, HTTPS only

Tasks:

9. When a task step is to send a specific email, can that step link directly to that email template? (Like Email Timeline)?

- **Status: Done (Manual setup)**
- **Answer:**

Yes email-type tasks with template + compose button.

- **Same thing elsewhere?:**

Email Timeline uses the same pattern: template + prefill + open Emails compose.

Compass task lists (Task List - Buyer Files/Listings (Compass).pdf) are not auto-imported tasks must be created and linked manually unless templates are seeded.

- **Suggestions:**

Import Compass PDFs as default task templates with task_type=email and pre-linked email_template_id.

Show template name on task row for clarity.

Allow changing template from task row without full edit dialog.

- **Where in the app:**

The screenshot displays the 'Tasks' section of an application. At the top, a navigation bar includes 'Overview', 'Document Checklist', 'Stored Documents', 'Tasks' (active), 'Emails', 'Notes', and 'Timeline'. Below this, a task list is shown with columns for status (e.g., 'Pending'), due date (e.g., 'Due 2026-06-25'), and an 'Email' button. A modal dialog is open, showing the details of a task step. The dialog has a 'Task title' field and a 'Task type' dropdown set to 'Email'. It also shows a 'Communication' summary with '16 emails on this file' and 'Outbound: 16', 'Failed: 4'. The 'NEW EMAIL' section includes fields for 'To' (ashhadu (Listing agent) - syedmuhammadashhadufaridi@gmail.com), 'Use template' (Document Request (Document Request)), 'Subject' (Documents Needed — 1847 Sonoma Hills Drive, Sonoma, CA, 95476), and 'Email' body text. A 'Compose email' button is visible in the top right of the modal.

10. On the task list, link a task to a document and possibly a video (task instructions)?

- **Status: Not Done**
- **Answer:**

No instruction doc or video link on tasks.

- **Suggestions:**

DB migration: add to project_tasks:

instruction_stored_file_id (optional)

instruction_url (optional — video, Loom, Drive)

instruction_label (e.g. “Open instructions”)

UI: View instructions button on task row (opens file or URL).

When seeding Compass tasks, map each “Instructions here” to vault file or URL.

Optional: embed video preview in task detail drawer.

Checklist:

11. Type timestamped notes next to each document on the document checklist. Is it going to be added in the next phase?

- **Status: Done**
- **Answer:**

Already implemented may not have been visible on an older prototype build.

- **Same thing elsewhere?:**

Task notes (project_task_notes) — same timestamped pattern but for tasks, not checklist rows.

- **Suggestions:**

Demo to senior: Document Checklist → click notes icon on any row.

UI polish: Add visible “Notes” label or badge count on row (count already supported: notesCount).

No new build required unless she wants notes inline on the row instead of popover..

- **Where in the app:**
